

OBJECTIVE₃ Territorial Cooperation 2007-2013

Projects Development

Transnational

Interregional

Crossborder

Bear in mind

Programme aims

Sustainable and balanced development

**Competitiveness - endogeneous
resources (“growth and jobs”)**

Area approach

Territories composed of different structures and characteristics - physical, cultural, natural...

Different assets

Diversity = comparative advantage

Endogenous resources – development capital/potential

Transnational

Interregional

Crossborder

Transnational co-operation

relevant stakeholders
horizontal +vertical co-operation
public participation

Interrelations

other areas
inside the area

Continuous process

Transnational

Interregional

Crossborder

CE Project

What about ?

Why ?

For whom ?

Transnational

Interregional

Crossborder

Projects

knowledge about the processes in concrete territories and areas of interest

don't invent needs – follow the stakeholders demand

provide user tailored results that can be easily and widely capitalised

be innovative in topics, approaches, activities

Projects
