

Podpora ESPON pri oblikovanju integralnih razvojnih politik v Veliki Britaniji

Cliff Hague
Angleška kontaktna točka za program ESPON

Planning is devolved in UK

- The UK Parliament is responsible for planning in England.
- The Scottish Parliament for planning in Scotland.
- Wales & Northern Ireland have their own systems.

Scotland's National Planning Framework

- Looks to 2030
- "co-ordinating policies with a spatial dimension and aligning strategic investment priorities".

NPF sees Scotland in Europe

INTERSTRAT in Scotland

- Workshop in Edinburgh with Scottish Government planners & city region planners.
- SWOT, scenarios.

Some messages from workshop to ESPON

- Could ESPON undertake reviews of strategic development plans and advise on how they could be improved?
- Communication with strategic policy makers should be seen as a core priority for ESPON.
- Benchmarking of city regions across Europe could be a valuable resource.
- Reports should be in "Plain English".
- Use videos for dissemination too.
- Summary feedback: "This was an excellent day"

Wales

Wales Spatial Plan

"The spatial planning approach in Wales is a key mechanism in joining up our activities: nationally, regionally and locally. Its real value and potential is in its cross-cutting nature: across organisations and administrative boundaries."

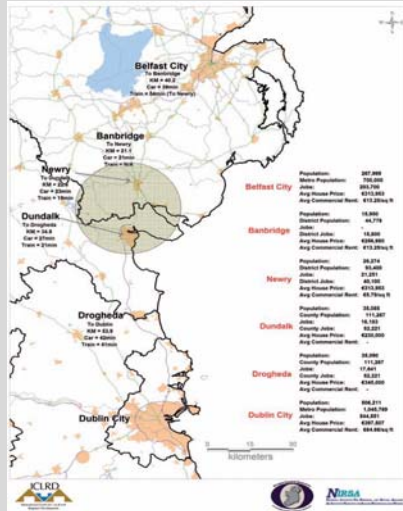

Northern Ireland

- Northern Ireland Draft Regional Development Strategy

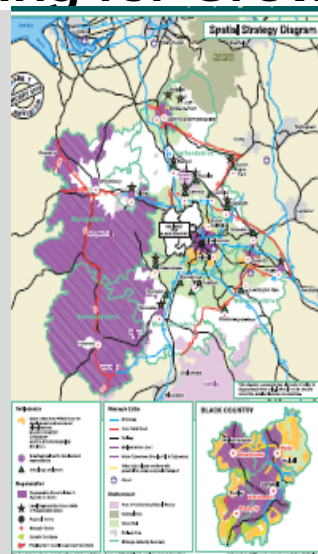

ESPON INTERSTRAT UK/Ireland

- Cross-border workshop in Dundalk, Ireland.
- "The range of reports from ESPON can help us to look at spatial plans from national to local level, and to avoid getting trapped into just following administrative boundaries."

England: Planning for Growth

- No national spatial strategy.
- Regional Spatial Strategies – abolished.
- Local Enterprise Partnerships – business/local authority.

INTERSTRAT day conference

Hands Off Our Land:
Planning ministers 'know nothing' says Tory donor and property boss

Ministers "know nothing" about planning and have to be "told the facts" by developers because they have "never been in the real world", according to a Tory donor and property developer.

Daily Telegraph

30 September 2011

"Planning for Growth – what can we learn from Europe?"

10 messages to the conference

1. Play to local strengths.
2. Plan for resilience.
3. Understand agglomeration economies.
4. Have an innovation dimension.
5. Clusters.

Message 6

Improve access to networks and connectivity.

- Physical
- Virtual
- Access
- Congestion

Message 7

Avoid urban sprawl.

- Natural resources, car dependency, energy insecurity.
- Worst of crash in regions tied to construction.

Message 8

Plan functional regions and improve urban-rural relations.

- In European terms, "rural" England is very accessible to urban centres.
- Key role of towns.

Message 9

Analyse the territorial impacts of policies and proposals.

- TIA a key area of ESPON work, focused on EU Directives.
- Quick scan being developed.
- Evidence-based and transparent basis for policy.

Message 10

Public services matter.

- Procurement can be a stimulus to innovation.
- Public sector has helped lessen regional impact of recession.
- Services sustain rural settlements.

UK INTERSTRAT demonstration materials

- These focus on Targeted Analysis Projects with UK stakeholders.
- Also they emphasise "Planning for Growth"
- Scenarios, indicators and benchmarking are also covered.

Blog

- Also used www.espon.org.uk and blog on www.CliffHague.wordpress.com to publicise ESPON and ESPON-INTERSTRAT.

ESPON gives you new ideas
